To our valued customers,

Good news! Dutch Country Auctions continues to grow—while some seem negative about our hobby, we see the bright side.

Starting in 2020, we will add six more auctions to our schedule. We will split out the coin section and have coin auctions every other month starting in February of 2020.

We continue to receive more of both stamps and coins for consignment and splitting the auctions will help us better serve both our sellers and buyers.

If you have any questions or would like more information on future auctions please feel free to contact us. We are at your service!

Colonial Coins			
1	1767-(A) French Colonies 12 Deniers KM#6, Breen 701 Countermarked "RF" ICG XF45. Even brown w/ ample detail and great eye-appeal. Breen notes that the true date of mintage is likely 1793. Only the un-countermarked pieces are rare.	EST 150-200	SE
2	1787 New Jersey Error Coin PCGS FR02. Identified as a Small Plan; Plain Shield variety DOUBLE STRUCK. Though NJ coppers are replete w/ errors, this one is distinguished by prominent doubling at the date resulting in two clear impressions of 1787. An interesting coin for the colonial or error enthusiast.	EST 250-400	SE
3	1788 Massachusetts Cent w/ Period NGC VF Details Environmental Damage. Nice coin overall. Smooth surfaces, even medium-chocolate brown, and no problems other than wear. The environmental damage referred to is simply the minor roughness that appears on so many of these pre-federal copper coins creating only a minor distraction. As we have noted in the past, Massachusetts coinage is usually well-worn indicating decades of use in the channels of American colonial commerce.	EST 220-260	SE

Large Cents			
9	1797 S-141 (R4) G. Compact Date; 7 distant from drapery. A scarce variety. Even chocolate brown w/ date and legends clear.	EST 135-160	SE
10	1803 Sm Date; Sm Fraction NGC XF45 BN. The variety is S-255 (R1). A couple small corrosion spots plus a small rim imperfection under the 0 of date, but loads of original detail.	EST P 850-1,150	HWC-SE
11	1814 Crosslet 4 S-294 XF detail Net VF30. Typical of most Classic Head cents, the planchet is a bit rough but the coin's strike is even and well-centered, and the color is a lovely medium to dark chocolate brown. Possibly recolored but expertly done. A great coin for type.	EST P 650-900	HWC-SE
12	1851 NGC MS64 BN. Lovely coin that speaks for itself.	EST 280-350	SE

18	1907 PCGS MS64 RB. Close to full red but the rev is only 75% there.	EST 75-90	SE
19	1908 PCGS MS64 Red. Beautiful original w/ only a few small rev freckles keeping it from a higher grade.	EST P 140-170	SE

37	(24) Diff 1883NC // 1912 in a Dansco 7111 album. The keys are missing o/w a decent set with most coins grading in the XF to AU area. There are a few that are cleaned or have other problems but overall it is far superior to what is usually encountered when it comes to Liberty Nickels. (Bonus: (6) add'l coins in the album a couple of which are fairly nice.) (30 total coins)	EST	260-350	B
38	(24) Diff 1883NC // 1912-S housed in (2) old Wayte Raymond pages, most grading VF to AU. The keys are all present (1885 G damaged, 1886 nice orig VG+ & 1912-S G) the rest are mostly after 1893 in much better condition than the very worn coins of this series that are typically encountered. Well worth inspection.	EST	500-650	HWC-SE
39	(600) Liberty Nickels 1883 // 1912-D (most after 1900) avg circ.	EST	240-300	B

40	(100) 1913 Type 1 most full-horn VF or better originals. Per the consignor, these coins were saved from circulation by a collector in Lebanon Pa. who was active in the 1930s & 40s. Neat time capsule!	EST	260-350	B
41	(39) Diff 1913 // 1937-S in a Dansco 7112. Higher grades for the most part but there is evidence that most of the coins have had a light cleaning.	EST	160-200	B

46	1853 Arrows MS60+ even light grey w/ a strong strike showing exquisite detail in the stars and Liberty's head.	EST P	210-250	SE
Bust Dimes				
47	1821 Small Date XF detail but there is a 1.5mm hole at K5. Beautiful coin otherwise.	EST	100-135	SE
Seated Dimes				
48	1844 VG original and attractive for the grade. The famous "Orphan Annie" dime, a name given to the low-mintage (72,500) 1844 dime by numismatist Frank Ross in a 1931 article in Hobbies magazine. In truth, the 1846 is somewhat scarcer, but the 1844 is nonetheless seldom encountered and our offering here represents a good opportunity to snag a scarce issue.	EST P	160-200	SE
49	1853 Arrows AU58 lovely light grey original surfaces.	EST P	140-170	SE
50	1861 NGC MS64. Pure white and mark-free.	EST P	350-400	HWC-SE

58	(153) Dimes in complete sets of Mercury 1916 // 1945-S (76) and Roosevelt 1946 // 1980-D in Whit folders. Mostly circ w/ earlies in lower grade (no 16-D, 21 AG, 21-D Good), later better. Nicely presented and a bit higher quality than that typically encountered.	EST 160-200 B
Twenty Cent Pieces		
59	1875 Proof PCGS PR62. Hazy fields give this one a rather "creamy" appearance. The proof characteristics are plainly evident. Scarce with a mintage of only 1,200.	EST P 1,200-1,400 HWC-SE
60	1875-S XF detail but whizzed to an unnatural brightness.	EST 100-125 SE

68	1923-S Fine original w/ no problems. As is so often the case with this issue, the coin has ample overall detail for the grade, but only the 3 in the date shows.	EST 260-300 HWC-SE
69	1923-S PCGS XF45 with a bold well-struck date. Quite conservatively graded by PCGS. This cataloger has seen coins graded AU55 that weren't nearly as nice as this one. A beautiful coin for the grade and well worth inspection.	EST P 1,100-1,300 HWC-SE

Bust Halves		
78	1818 O-108 (R1) & 1826 O-113 (R3) both VF/VF+ brightened but still attractive.	EST 150-180 SE

Seated Dollars		
107	1843 NGC MS61. Predominantly white w/ only minor blemished consistent with the grade. Truly mint state Seated Dollars are very scarce. Author Q. David Bowers estimates that only 30 to 50 mint state dollars of 1843 exist. 123	1890-O PCI-graded MS65 blast white. It is doubtful that this coin would cross-over to an equivalent grade at PCGS or NGC. The probable grade is MS64 and as nice as it is, it should get CAC approval at that level. Worth inspection.	EST P	250-400	HWC-SE
124	1890-S Paramount red insert "MS65". (Actual grade probably MS63.) From the famed "Redfield Hoard" marketed by Paramount in the late 1970s. Redfield, a wealthy investor from Nevada, accumulated over 500,000 silver dollars before his death in 1974. Paramount later sold the coins in specially-marked plastic cases - black inserts for the "MS60" coins, and red inserts for the "MS65" coins. While far from "rare", so many have been removed from the original holders over the last 40+ years that relatively few remain today. Lot Bonus: 1882-O MS63 in the Paramount holder but not pedigreed to the Redfield Hoard. (In fact, while an exact accounting of the Redfield Hoard was never released, we know that it contained NO dollars from the New Orleans mint.)	EST	160-200	SE
